

Teilnahme an der International Conference on Information Systems (ICIS) 2021

Die Forschungsgruppen der Professoren Mädche, Satzger, Sunyaev und Weinhardt werden mit insgesamt 10 Beiträgen auf der „International Conference on Information Systems (ICIS)“ vertreten sein, die im Dezember 2021 in Austin, Texas stattfindet. Herzlichen Glückwunsch allen Autoren!

Chandra Kruse, L., Seidel, S., and Maedche, A.:
Levels of Digital Representation: Semiotics and the Articulation of Meaning

Grisold, T., Gau, M., and Yoo, Y.:
Coding Like a Rockstar: The Role of Social Influence on Action Patterns in GitHub

Haug, S. and Maedche, A.:
Crowd-Feedback in Information Systems Development: A State-of-the-Art Review

Heines, R., Kannengießer, N., Sturm, B., Jung, R., Sunyaev, A.:
Need for Change: Business Functions Affected by the Use of Decentralized Information Systems

Jussupow, E., Meza Martinez, M. A., Maedche, A., and Heinzl, A.:
Is This System Biased? – How Users React to Gender Bias in an Explainable AI System

Peukert, C., Brossok, F., Adam, M.T.P.:
Towards Designing Live 360° Virtual Tours

Renner, M., Lins, S., Söllner, M., Thiebes, S., Sunyaev, A.:
Achieving Trustworthy Artificial Intelligence: Multi-Source Trust Transfer in Artificial Intelligence-capable Technology

Seiffer, A., Gnewuch, U., and Maedche, A.:
Understanding Employee Responses to Software Robots: A Systematic Literature Review

Staudt, P., Greif-Winzrieth, A., Nieken, P.:
Increasing Contributions to Sustainable Projects through Digital Nudges Amplifying Social Comparison

Wambsganss, T., Engel, C., Fromm, H.
Improving Explainability and Accuracy through Feature Engineering: A Taxonomy of Features in NLP-based Machine Learning

Weitere Informationen zu den Forschungsgruppen:

- [Information & Market Engineering - Prof. Dr. Christof Weinhardt, IISM](#)
- [Information Systems & Service Design, Prof. Dr. Alexander Mädche, IISM](#)
- [Critical Information Infrastructures, Prof. Dr. Ali Sunyaev AIFB](#)
- [Digital Service Innovation, Prof. Dr. Gerhard Satzger, IISM](#)
